

Our School Development Plan

Written by the School Council in November 2023

To develop our digital competency and maths skills so that we can solve challenging mathematical problems.

To use the outdoors to support us to become: ethically informed citizens, healthy and confident individuals, enterprising creative contributors and ambitious capable learners.

To make us better readers so we become the best that we can be.

To know where we are with our learning and where we need to go next. To develop an understanding of how we will get there. To take greater responsibility of our learning.

To work together to improve our Welsh skills.

To be awarded Cymraeg Cwmpas Silver Award.

OTHER SCHOOL DEVELOPMENT PRIORITIES

2023-2024

- To improve whole school attendance so that we can become the best we can be.

Attendance Matters

- To achieve the Keep Wales Tidy Eco Schools Platinum Award so that we can develop as ethically informed citizens and healthy and confident individuals.

- To use the WOW scheme, funded by WAG, to increase and promote active travel so that we can develop as ethically informed citizens.

- To improve our understanding of neurodiversity. We want to achieve the Learning in Autism Award.
